Summary

I am eager to secure a challenging role within a reputable organization, where I can leverage my technical, security, and administration skills to contribute to company growth and remain up-to-date with emerging trends in the IT industry.

Education

- B.E - Computer Science and Engineering,** 2019 – 2023
SBM College of Engineering and Technology,
CGPA - 8.7/10.
- HSC,** Government Higher Secondary School, 2018 – 2019
Percentage - 62.8%.
- SSLC,** Government Higher Secondary School, 2016 – 2017
Percentage - 86.2%.

Professional Experience

- Front-End Developer,** Personal 2022 – present
- Developed and successfully deployed responsive websites and pages using HTML, CSS, JavaScript, and React.js ensuring seamless user experiences across various devices and browsers.
 - Employed React.js for website development, designing and integrating React components to deliver dynamic and engaging user interfaces.
 - Utilized media queries and flexible layouts to create a seamless user experience across various screen resolutions, resulting in a significant 30% increase in user engagement.
 - Spearheaded the design, implementation, and ongoing monitoring of web pages and sites, driving continuous improvements and enhance user experiences.
- Cyber Security Researcher,** Freelancing 2021 – 2022
- Collaborated on vulnerability disclosure programs with multiple companies, assisting in strengthening their security measures and protecting them from potential attacks.
 - Achieved recognition from several companies by being added to their Hall of Fame or receiving acknowledgements for my contributions to vulnerability discovery.
 - Researched open-source responsible disclosure programs, analyzing best practices and methodologies

Projects

- Personal Portfolio,** 08/2023 – 08/2023
Technologies: React JS, Adobe Photoshop, Illustration, React Icons [🔗](#)
- Engineered a responsive personal portfolio webpage through the utilization of React JS.
 - Implemented a fully responsive design for the website, optimizing it for both desktop and mobile devices.
 - Achieved a visually cohesive and pleasing design through strategic CSS styling and layout techniques.
 - Link to the project <https://karthikgohul.netlify.app>
- Password Generator,** 06/2023 – 06/2023
Technologies: HTML, CSS, JavaScript, Password Security Standards [🔗](#)
- Created a password generator with HTML, CSS, and JavaScript, showcasing front-end skills and user-friendly app creation.
 - Applied JavaScript's randomization methods for generating secure passwords based on user-defined criteria, including length and character types.
